RE: TNCC / ENPC certification expirations through April, 30, 2020

Hello All-

Due to the current recommendations from the CDC and the WHO, many TNCC and ENPC classes are being cancelled nationwide. In light of this, the Emergency Nurses Association has granted an extension for TNCC and ENPC certifications.

All ENPC / TNCC Providers with expirations between now and April 30th will have their certification expirations extended to May 31st, 2020.

Please pass this message forward to all those that may need it.

Eric Christensen BSN, RN, CEN, CPEN, FAEN

For anyone who expires between now and April 30, we will extend their provider status through May 31. This is a temporary measure that we hope will provide some flexibility during this time. Thanks to all for your creativity and perseverance!
